Progress

- successfully handling connection with IS
- parsing HTML
  - able to select weeks of semester when course happens
- displaying courses in correct time in the timetable

Gained experience

- using of libraries
  - parsing HTML was fast
  - integration of existing solutions
- creation of java keystore
- working with Android Studio
  - time consuming

To Be Done

- Export the timetable to the Google Calendar.
- Add custom curses.
- Modify properties of imported courses.
- Fix minor bugs and overall fine-tuning.
